

LIOR AHARON

Full Stack Developer

+972-53-520-1226 | lior.ah98@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Google Play Console](#)

PROFESSIONAL SUMMARY

Highly motivated and results-driven Full Stack Developer with professional experience building, optimizing, and deploying robust web and mobile applications. Proficient across modern JavaScript/TypeScript ecosystems, cloud infrastructure, and database management. Skilled in translating complex product requirements into high-performance, maintainable, and user-centric digital solutions.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript
Front-End / Mobile:	React.js, React Native, Next.js, Redux, HTML5, CSS3, Material UI
Back-End / Cloud:	Node.js, Express.js, Firebase, AWS (Amazon Web Services)
Databases / Tools:	MongoDB, Grafana, Git, npm, RESTful APIs

PROFESSIONAL EXPERIENCE

Tripteam	2024 – 2025
Full Stack Developer	
- Architected and maintained core features for a global social networking mobile application using React Native, Node.js, and MongoDB. - Collaborated with cross-functional teams to design and integrate secure, scalable RESTful APIs, optimizing data flow efficiency and frontend user experience. - Spearheaded comprehensive code reviews, mentored junior developers, and championed clean code architecture and software engineering best practices. - Contributed to internal open-source modules and shared libraries, significantly enhancing code reusability across engineering teams.	
Abilisense	2022 – 2023
Full Stack Developer	
- Engineered a full-stack production application integrating an advanced decibel meter and real-time audio anomaly detection systems. - Implemented high-performance real-time audio analysis features using Next.js and Redux, enabling smooth user visualization of complex audio waveforms and spectrum analyses. - Designed back-end data ingestion components and constructed custom production dashboards via Grafana to track, analyze, and monitor acoustic data streams.	

PROJECTS

Lotto Mobile Application Lotto link	Progressive App
Progressive App	
- Developed and deployed an end-to-end progressive mobile application utilizing React Native (Expo), TypeScript, and Node.js. - Integrated a secure database layer using MongoDB alongside Firebase services for real-time authentication and cloud messaging.	
Bank Web Application Bank link	Progressive App
Progressive App	
- Architected an end-to-end progressive banking application using React, TypeScript, and Node.js / Express.js. - Leveraged Firebase for secure client-side services and deployed core backend microservices onto scalable AWS infrastructure utilizing a MongoDB data layer.	

EDUCATION & CERTIFICATIONS

- Full Stack Web Development Certification** • SV College
- React & React Native Advanced Certifications** • Udemy
- JavaScript Core Certification** • The Net Ninja
